## ABOUT US

# PHOENIX TAPWARE

Founded on the principles of design, quality and customer service, Phoenix has been producing tapware, showers and bathroom accessories since 1989. We have put these years of experience and knowledge into the development of each product to ensure we maintain the trust we have gained from our customers over the years.

Our collections are designed in Australia by our award-winning design team, who share a collective 100 years of experience in the industry. Having an in-house design team means we're able to closely manage the design, quality, performance and overall aesthetic appeal of each and every product, as well as responding quickly to market trends and consumer interest.

We are determined to create products of high quality, longevity and durability. We take the utmost care and precision to ensure all factors are considered before taking a product to market. We believe our extensive warranty program is a testament to this.

Our highly trained and friendly Customer Service Team allow our customers to make informed decisions with confidence and peace of mind. Phoenix's sales staff and agents cover all metro and country areas of Australia and we pride ourselves on the service they and our customer service centre provide.

We have been internationally recognised for our innovative designs with four iF Design awards, three Red Dot awards and two Good Design awards. This is a great accomplishment for our design team, who's hard work has been deservedly rewarded by such esteemed design forums.

Phoenix products are certified to meet Watermark regulations, confirming our products comply with the plumbing code of Australia and the relevant standards. A large range of our products have also been awarded a 6 Star WELS rating for water efficiency, helping every household with both water conservation and utility bills.

## ABOUT US

# EXTENSIVE WARRANTY

At Phoenix, we believe our warranty is a testament to our ongoing commitment to producing quality products. We have a highly trained, full-time team, who are dedicated to providing quality after sales care and service. This service allows our customers to purchase with confidence and peace of mind. Each Phoenix product is tested to ensure

we exceed all Australian standards, including the standards of our customers. We employ testing technologies and techniques in-house to assess each product's life-cycle. We only ever send products to market when we are confident they will provide valuable and long-term solutions, allowing us to offer such an extensive warranty.

## ABOUT US

# MEET OUR DESIGNERS

Our relentless focus on design and innovation ensures customers will always enjoy the best bathroom experience.

Our Australian design team have a collective 100 years experience in the design industry and have been recognised for their outstanding achievements throughout their time at Phoenix, most notably with 4 iF Design Awards, 2 Good Design Awards and 3 Red Dot Awards.

ANNIVERSARY

ABOUT US

# PHOENIX CELEBRATES 30 YEARS

Phoenix Tapware proudly celebrates 30 years as a market leader, ground breaker and innovator in Australia's bathroom and plumbing industry.

For three decades, our company has fostered a brilliant reputation at the forefront of design and manufacture with an internationally award-winning range of tapware, accessories and shower products, expertly led by a committed Australian team.

From small beginnings to major company growth over the years, Phoenix is well established as a market leader, with one of the largest selections of designs of any bathroom brand. Available in most retailers, the business is preferred by Australia's largest builders, architects, designers and major projects.

We have recently added 2000sq metres to our Bayswater headquarters, and grown the staff base with many celebrating 15+ years as a testament to the company's culture.

As for the products, every effort and outcome has culminated in a substantial warranty program, which is testament to the quality, care and precision taken in the design, production and service of each product.

In the future, there are exciting plans. With several designs in the pipeline and continuing expansion within the Australian market, we are also looking to further extend in the plumbing sector with a second-to-none team of the highest quality in the industry.

Excellence. Visionary. Trusted – that's the Phoenix story today.

# CONTEMPORARY FINISHES

Phoenix is proud to offer a wide range of stunning tapware finishes to complement any interior design. Each finish is developed to the highest quality and durability standards using the latest technology and production processes.

Note: Some colours may vary across product types due to differing construction materials. Printed images are a representation only and the colour or finish may vary from the actual product.

# BRUSHED NICKEL

This finish is characterised by its warm, soft metallic appearance and brushed lines on its surface. It's a more toned down look that pairs well with white, as well as light coloured granite or marble.

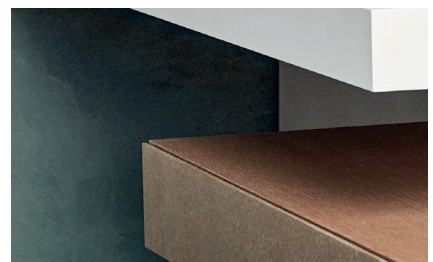

Brushed Nickel Mixer & Tapware Collections:  
 1. Vivid Slimline 2. Vivid Slimline Up 3. Alia  
 4. Zimi 5. Mekko 6. Rush 7. Vivid Slimline Plus 8. Teel. Designer Sink Mixers and Vivid Slimline Oval (not shown)

Brushed Nickel Accessory Collections:  
 1. Vivid Slimline 2. Radii Round & Square  
 3. Gloss 4. Wastes & Traps

Brushed Nickel Shower Collections:  
 1. Lexi 2. Vivid 3. NX Quil

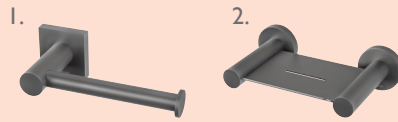

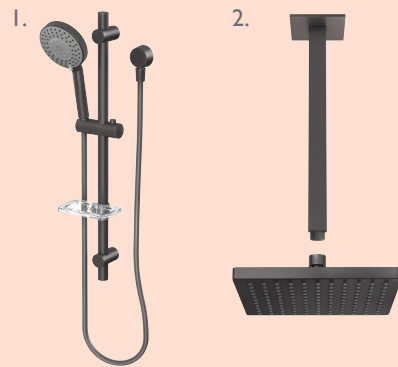

The softer, matte finish of Gun Metal will lend a sophisticated look to the room and complements white or grey tones. Neutral colours, timber or even brick can be used to warm up the look.

Gun Metal Mixer & Tapware Collections:  
 1. Vivid Slimline 2. Mekko 3. Vivid Slimline Plus  
 4. Teel, Vivid and Vivid Slimline Up (not shown)

Gun Metal Accessory Collections:  
 1. Rarii Square 2. Rarii Round and Wastes & Traps

Gun Metal Shower Collections:  
 1. Vivid 2. Lexi and Vivid Slimline

# GUN METAL

# MATTE BLACK

Matte Black is a confident, stylish statement that complements simple, monochromatic environments as well as flourishing in bold and colourful surroundings. If pairing with a lot of white, try using a touch of timber to tone down the styling.

Matte Black Mixer & Tapware Collections:  
 1. Vivid Slimline 2. Vivid Slimline Up 3. Mekko  
 4. Vivid Slimline Plus 5. Vivid Slimline Oval  
 6. Teel 7. Rush 8. Zimi. Designer Sink Mixers and Vivid (not shown)

Matte Black Accessory Collections:  
 1. Rarii Round 2. Rarii Square 3. Gloss  
 4. Vivid Slimline, Drains, Wastes & Traps

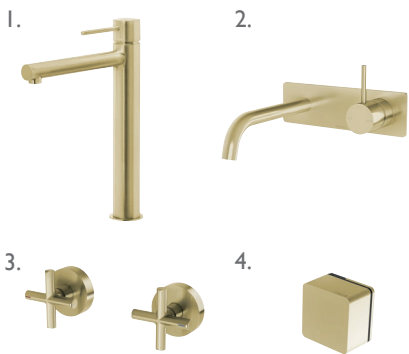

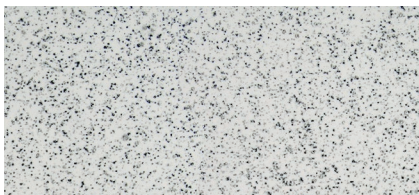

Matte Black Shower Collections:  
 1. NX Orli with HydroSense® 2. Lexi  
 3. Vivid. Vivid Slimline, NX Iko with HydroSense® and NX Quil (not shown)

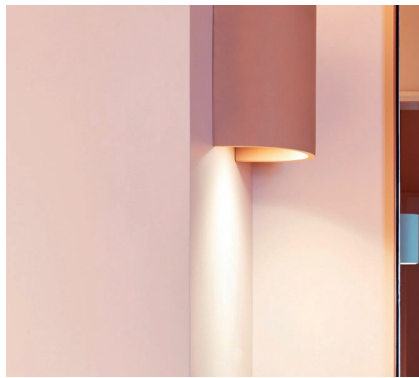

The warm tone of our Brushed Gold finish is characterised by the soft lines across its surface and its soft metallic hue. It's a modern spin on the traditional gold tapware finish and can be paired with other soft metallic finishes, or black and pastel colours, in a contemporary scheme.

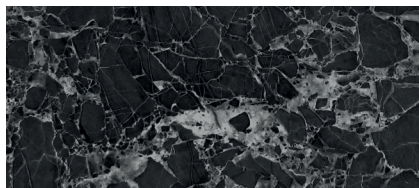

Brushed Gold Mixer & Tapware Collections:  
 1. Vivid Slimline 2. Vivid Slimline Up 3. Vivid Slimline Plus 4. Alia. Vivid, Outlets and Designer Outlets (not shown)

Brushed Gold Accessory Collections:  
 1. Rarii Round 2. Gloss 3. Wastes & Traps

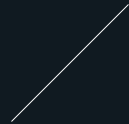

Brushed Gold Shower Collection:  
 1. Rush Shower Arm and Vivid Rose 2. Vivid

# BRUSHED GOLD

# ORTHO

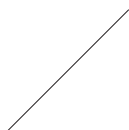

This international award winning collection is heavily influenced by the principles of modernism, this iconic design focuses on the composition of simple, geometric shapes. Using European progressive cartridge technology, the intuitive central dial intimates the actuation and allows the minimalistic silhouette to define the design.

**PROGRESSIVE CARTRIDGE TECHNOLOGY**

The intuitive operation is simple, by turning the pin clockwise, water flow and temperature increases. On first turning, cold water increases until 90°, at which point hot water will begin to mix with full pressure cold. At 135° rotation, the water has an equal hot / cold mix, and at 180° it has reached full hot. This operation system is both water and energy saving.

**BOX INCLUSIONS**

Each mixer has the option of a Black or White styling ring included in the packaging, making a custom look achievable.

# TOI

Our international award winning design team have paired raw minimalism with a hint of modern architecture in the design of Toi. This collection embraces the eclectic trend of split finishes, along with slim aesthetics, and twist dial mixer handles. Individual, stylish and audacious, Toi blurs the line between industry and art.

# ALIA

Built on the principles of minimalism, the award winning Alia collection strips tapware design down to its fundamental elements. The austere simplicity of this collection is enhanced by its fine attention to detail, as shown in the product's etching and black trim detailing. Alia's progressive cartridge functionality and polished surfaces come together to create the ultimate in minimalist style and luxury living.

### PROGRESSIVE CARTRIDGE TECHNOLOGY

The Alia Shower / Wall Mixers use a progressive cartridge. By turning the mixer clockwise, water flow and temperature increase. On first turning, cold water increases until 90°, at which point hot water will begin to mix with full pressure cold. At 135° rotation, the water has an equal hot / cold mix, and at 180° it has reached full hot.

# NARA

Design and form have featured in the creation of this international award winning tapware collection. This zen inspired range features a unique, open spout design and an innovative, flush mixer handle, which combine to create a free flowing, organic aesthetic that would not feel out of place in a relaxing Japanese bath house.

**VARY-FLO & PIVOT GLIDE**

The Phoenix Design Team have not only captured the essence of organic, free flowing forms in the design of this zen inspired tapware collection, they have also shaped two new technologies incorporated into the international award-winning Nara design.

Our patented Pivot Glide Technology® allows the handle to sink into the body of each mixer in the range, giving Nara its fluid form and minimalist appeal.

This collection is also the first to feature our new Vary-Flo Technology®, a patented component which is unique to Nara and allows for easily adjustable water flow projection on installation.

# NOSTALGIA

The Nostalgia collection has the glamour and old world charm to enhance any period home. Its elegant design and refinement is the essence of style.

# VIVID SLIMLINE PLUS

Chrome

Brushed Nickel

Gun Metal

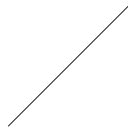

Matte Black

Brushed Gold

With the resurgence of three-piece tapware in full swing, our design team looked at how best to inject the Phoenix creative direction into this traditional tapware form. Vivid Slimline Plus is refined, sophisticated and innovative, with fine detailing the key to its aesthetic charm. Designed with 'form follows function' in mind, is a great addition for both new and retrofit environments.

# VIVID SLIMLINE UP

Chrome

Brushed Nickel

Gun Metal

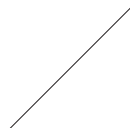

Matte Black

Brushed Gold

With its upward stretching lever handles and streamline appearance, Vivid Slimline Up epitomises industrial elegance. Taking cues from the ever-popular Vivid Slimline Collection, this timeless design has a durability to match and is sure to complement any contemporary bathroom space. The design is modern with a slight playfulness, literally switching it up with a fresh and new approach to lever orientation.

# THE SHOWER FOR YOU

Choosing a shower for your bathroom is not just about the aesthetics. It is also important to consider which type of shower suits your needs. The following guide points out key features and differences within our shower offering to help simplify the decision making and ensure it is the best possible solution for you and your family.

## SPRAY PATTERN GUIDE

Many Phoenix hand showers come with the added feature of multiple spray patterns. This feature allows you to control the degree of pressure by switching between gentle and intense sprays, so you can enjoy the perfect shower every time.

# NX

BY PHOENIX

Refined by design, NX elevates the essential elements of showering. From the award-winning design and engineering team at Phoenix, realise the true freedom of showering when you experience NX. With five unique and exquisite collections, there is something to suit all sensibilities, while delivering equally invigorating and calming shower experiences.

The brand-new additions of Iko and Orli feature HydroSense® – a revolutionary water spray technology from Phoenix's in-house Research and Development team. With HydroSense®, water is transformed. This patented\* technology accelerates water flow tenfold, resulting in more even coverage, improved performance in low pressure environments and reduced debris collection within the shower fitting.

The internal engineering ensures a fully immersive shower experience and the sense of total escape.

All NX Showers are backed by a lifetime warranty, which is a testament to their design and engineering quality.

\*Patent pending

CHR / CHR / MB

With a contemporary rectangular design edge, Cape offers a strong and immersive showering experience that will relax your body and your mind. The refined design is punctuated by sophisticated details and low-profile nozzles that provide an enveloping cleanse.

with  
HydroSense®

## NEW PATENTED+ SPRAY TECHNOLOGY

NX showers with HydroSense® feature ground-breaking spray technology developed by Phoenix's in-house design and engineering team.

Inspired by nature, our patented+ HydroSense® technology delivers curved sheets that multiply into dense, cascading droplets. The addition of quality brass components and elegant fixings ensures a lifetime of luxury whilst the internal engineering creates a fully immersive showering experience.

10 x WATER  
FLOW SPEED

MORE EVEN  
COVERAGE

IMPROVES LOW  
PRESSURE OUTPUT

REDUCED DEBRIS  
COLLECTION

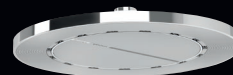

Measured against comparable litre / minute showers

+Patent pending

Slender and elegant in appearance, Iko is a design stripped back to allow for simplicity and clean lines. With all elements speaking to each other, the Iko shower is a harmonious presence and assured focal point in any bathroom interior. HydroSense® technology delivers curved sheets that multiply into dense, cascading droplets, creating a fully immersive showering experience.

With a focus on contemporary design, Orli was created with soft square detailing and flush design features at its core. Positioned as if floating against the wall, Orli is sleek and solid in appearance. HydroSense® technology delivers curved sheets that multiply into dense, cascading droplets, creating a fully immersive showering experience.
