**TURNER  
HASTINGS**  
EUROPEAN DESIGN

## About Us

For over 17 years we've supplied superbly crafted European sanitaryware, sinks and tapware to the Australian kitchen and bathroom market.

The quality of our European products reflects the pride we take in the sourcing and selection of our collections.

Turner Hastings has become the leading supplier of European ceramics, bathroom furniture and fixtures through an uncompromising dedication to the very best in design, quality, selection and service. Whether you prefer a traditional, classic or contemporary design, we have your style.

Every Turner Hastings product - from smallest chrome fitting to the most elaborate ceramic sink - is designed and manufactured to create unique, inviting and luxurious living spaces that stand the test of time. Our exclusive offerings allow you to design a home that is a true reflection of appreciation for unparalleled quality and artistry.

## European Design

Our collections are for those who truly recognise European design, quality and individuality when they see it.

The kind of hand-crafted perfection that no mere machine alone can truly replicate.

From our hand-crafted butler sinks, made the traditional way, to the reassuring strength and weight of our ceramic that's manufactured from fine fireclay to last a lifetime or longer.

As for the way our kitchens look, well, we are delighted to say that they speak for themselves.

## The Turner Hastings Difference

### Craftsmanship

---

Turner Hastings value quality as much as design. High quality materials are central to everything we do. All of our products are European designed, and manufactured from ceramic or fine fireclay from workshops and artisan studios throughout the world.

### Warranty

---

For peace of mind Turner Hastings offer great warranties on all products. We also make it very easy to make claims and have a team dedicated to after-sales service.

### Culture of Customer Care

---

We are an Australian family owned and operated business since 2002. Our culture of customer care allows us to serve the Australian market the way they deserve – to the highest level.

## Fine Fireclay

---

Fine fireclay is a superior material to ceramic, a 100% natural organic and recyclable material used by craftsman. Fired with temperatures that reach -2000° until the clay transforms into a durable, resistant, dense material. The special glaze coating that is fused with the fireclay body during firing gives fireclay sinks a non-porous, uniform surface which will not scratch, rust or stain over time.

## Ceramic

---

Ceramic is an inorganic material that is heated and cooled several times during preparation. During this heating and cooling the ceramics maintain a constant shape which is how the basins & toilets are made. The benefits include maintaining a glossy finish throughout the life of the basin unlike acrylic and polymarble. Ceramic is highly stain, scratch and chemical resistant and more hygienic than acrylic and polymarble and is much easier to clean.

## Traditional Bathroom Collection

Collections with exceptional presence and strength of character. Combining the ceramic ware, classical basin stands, authentic Victorian look toilets and a selection of wooden veneered furniture designed to complement the style of your traditional bathroom.

## Traditional Collection

Turner Hastings exclusive traditional collection includes a beautiful McKinley Italian made basin to fit into a heritage home. The Chantal range offers an inset and a smaller pedestal basin, the Arlington a smaller pedestal basin to suit the art-deco style, or choice of console available in 2 or 4 leg options.

6 Year  
Warranty

Chantal 60 Basin and Pedestal

### CHANTAL 60 X 50

Coventry 75 Vanity

## Coventry Collection

Individualise your bathroom with a genuine Italian Carrara marble top, no two pieces are the same so your bathroom will be as individual as you. With the beautiful heritage-style intricate panels on the solid timber doors and sides, and the German-made ultra-reliable Blum soft close drawers and door hardware, this is a premium selection for your home.

### Natural stone variations:

Marble is a natural material so each top is one of a kind. As it is a product of nature it is prone to variations in colour, shade, pattern, texture, and density; all of which are inherent in such natural materials. It is these characteristics that add to the beauty and charm of the material.

### COVENTRY 60 X 55

## Toilet Suite Collection

Back to wall toilet suites have been the first choice for Australians when completing their bathroom designs, as they look tidier and tend to fade into the background better. The back-to-wall option aligns best with the minimal aesthetic. Rimless toilets are designed to be easy to clean and to also look more minimalistic.

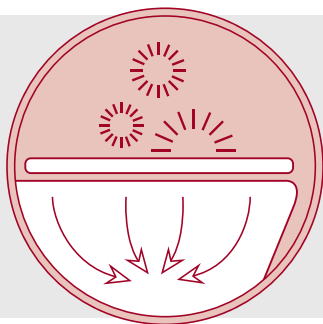

Our range comply with Australian Watermark standards. All toilet seats are soft closing and have an intelligent quick release function for ease of cleaning around the seat fixings. All bowls have been designed for excellent flushing performance requiring only one flush per use for real water saving, and all have a 4 star WELS rating. All toilet suites have been sourced with smooth lines for ease of cleaning and hygiene purposes.

### Rimless Technology

The rimless bowl removes the hiding spots for germs and gives you a more powerful whole bowl clean. Where cleaning agents and toilet brushes were not able to reach due to the compact design of closed rim pans. The innovation in new rimless design allows for a dynamic water supply and thorough cleaning.

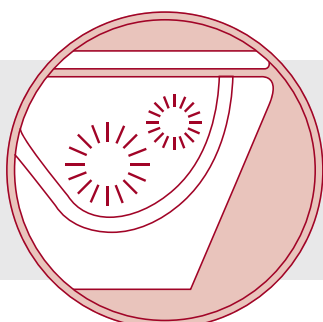

### Soft Closing

The soft close function allows your toilet seat to close gently on the bowl. It means no unpleasant bangs, reducing the need to touch the seat which improves the sense of hygiene.

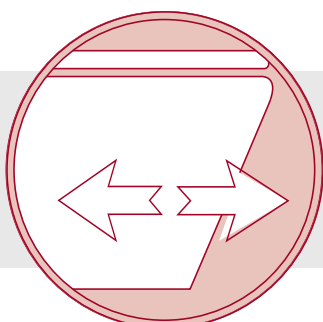

### Quick Release

Allows for optimal cleaning, all Turner Hasting toilet seats can be easily removed. Practical and easy to clean with a gentle push of two buttons, and reattach with a simple click.

### Nano Glaze

An anti-bacterial glaze that is applied to the inside of the bowl during the manufacturing process. This creates a barrier to prevent build up of germs and bacteria.

### Extended Set-Out

When choosing a toilet it is important to establish the set out required. For peace of mind, we provide an extender to ensure it fits your suite.

## In-Wall Cistern Frames

This high-quality world-recognised leading R&T brand in-wall cistern with a 15-year warranty is built for longevity. When required, all valves and parts can be replaced by easily detaching the flush plate - there is no access panel required. It is dual flush for water saving, and the valves are adjustable for increasing or decreasing water volumes per flush.

Pair with one of Turner Hastings range of flush plates and pans to complete the look. Built to last with a steel support frame, this in-wall cistern suits most wall hung pans on the Australian market.

## HYDE CONCEALED CEILING-MOUNTED SENSOR URINAL FLUSH VALVE KIT

Concealed Ceiling Sensor

The Turner Hastings Hyde concealed sensor is intelligently designed to be installed above the ceiling, with no penetration required! Using microwaves, the beam passes through up to 9mm thick fibro. Benefits of this system include direct sensing which means it only detects users of the urinal, not passers-by.

### Single Solenoid Valve

Operates 1-2 urinals) – Flushes all simultaneously

**Product Code:** UF4HCSS | **Price:** \$1699

### Double Solenoid Valve

Operates 3-4 urinals – Flushes all simultaneously

**Product Code:** UF5HCDS | **Price:** \$1899

### Single Directional Horn

Operates Single urinal – the horn component ensures very accurate directional sensing, allowing one urinal to be flushed at a time - best for water saving

**Product Code:** UF6HCDH | **Price:** \$1799

### Kit Includes:

Urinal Control Module

Wiring

24V Adapter

15mm Solenoid valve

15mm x 40mm air gap

Single Directional Horn (Supplied only with UF6HCDH)

Components not included (required): Isolation valve, Y Strainer

## Trap Collection

Turner Hastings traps are all manufactured with precision from high-quality brass, with lasting rubber seals, ensuring leak free use throughout its life. The bottle traps are intelligently designed with a base cape that can be easily unscrewed to clean the trap, and rescue jewellery if it happens to go down.

## Waste Outlet Collection

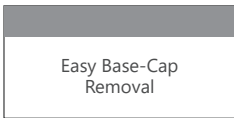

Turner Hastings has a waste to suit every basin. The universal wastes suit basins made for both 32mm and 40mm wastes, and with and without overflow. They are available with a plug, or in the popular European pop-up style. The ceramic waste is perfect for seamlessly completing the look of an organically shaped ceramic counter top bowl.

## Trap Collection

Manufactured with precision from high-quality brass or chrome ensuring it's leak-free throughout its life.

## Kitchen & Laundry Collection

The kitchen is the focal point of all homes. A friendly functional place where conversation flows easily, and laughter comes quickly. Food, drink and entertainment are always made around the kitchen.

Transform your favourite space with stunning European design elements, Turner Hastings' collections offer a range of designs to suit your taste. Make your kitchen a reflection of who you are, and what you value. A comfortable place that is the heart of your home.

## The Turner Hastings Difference

### European Made

---

Only the best, our fine fireclay sinks are manufactured in leading fireclay workshops and artisan studios throughout Europe. We hand select our collections featuring exquisite styles and designs to bring home to you.

### 30 Year Warranty

---

For peace of mind Turner Hastings offer great warranties on all products. We also make it very easy to make claims and have a team dedicated to after-sales service.

### Handcrafted Excellence

---

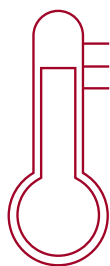

Turner Hastings fine fireclay sinks are handcrafted to handle the knocks, drops and messes that come with day-to-day life. They blend seamlessly with any kitchen or laundry style: heritage, contemporary or classic.

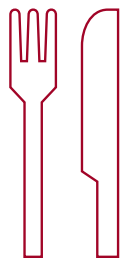

## Fine Fireclay

Turner Hastings sinks manufactured with fine fireclay, a 100% natural organic and recyclable material used by craftsman. Fired with temperatures that reach thousands of degrees -2000\*until the clay transforms into a durable, resistance dense material. The special glaze coating that is fused with the fireclay body during firing gives fireclay sinks a nonporous, uniform surface which will not scratch, rust or stain over time.

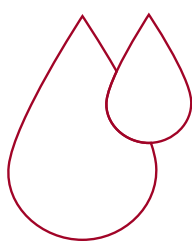

### Heat proof

Extreme heat from pots and pans

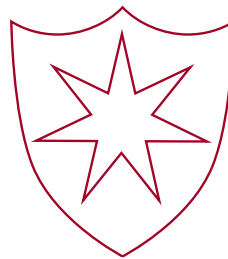

### Food safe

Safe for food and safe for you

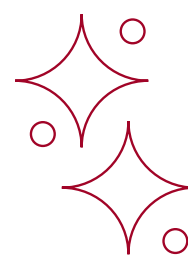

### Stain Resistant

Food, drink & common stain

### Impact-Resistant

Durable material, resistant to impact

### Hygienic

Easy to clean

## Butler Collection

Turner Hastings has a full and complete range of butler sinks. Ranging from 510mm, perfect for a small butler's pantry, to a large double 850mm wide sink, great for double bowl practicality and a brilliant centrepiece of your large kitchen.

## Care Information

### FINE FIRECLAY AND CERAMIC WASH BASINS

Use a mild household detergent or warm soapy water and clean with a soft cloth.

### MARBLE TOPS

Our marble surfaces are sealed with a high quality natural stone sealer at the factory which will protect it from staining. However, you should arrange to have your bench top resealed approximately every 2-4 years. This depends on the amount of use of the stone. For example, kitchens require 1-2 years resealing, but kitchen benches are much more high use than bathroom vanities, so bathroom vanities only require it every 2 – 4 years. The sealer we recommend is the market leader Lithofin MN Stain-Stop.

As with any product, clean regularly. Most common household cleaning products are safe to use, such as non-alkaline cleaning products, mild house detergents with warm water, glass cleaning products and any non-abrasive household cleaner. Wipe with fresh water after cleaning. Wipe the surface dry with a soft dry cloth after cleaning.

DO NOT use abrasive cleaners. If spills do occur, wipe immediately quickly with fresh water. DO NOT use oil-based cleaners, i.e. turps, kerosene etc. Avoid exposing stone bench tops to chemicals or acidic liquids such as oven cleaners, oil, paint removers, or fruit juices.

While natural marble will provide a lifetime of use, the material is inherently brittle, and you should avoid sitting or standing on these surfaces since any uneven substrate or base can cause cracking.

Do not use your counter top as a cutting board. This can cause permanent deep scratching. Avoid dropping heavy or sharp objects on the bench top as chips and cracks cannot easily be repaired. The placing of hot items such as hair straighteners directly to the bench top should be avoided.

### FINE FIRECLAY SINKS

Use a mild household detergent or warm soapy water and clean with a soft cloth. The surface can be susceptible to damage from sharp or metallic objects such as metal cutlery. Try to avoid metal objects coming in contact with the surface by using protective drainers and cutlery holders. Please do not over-tighten any fittings as this may cause the surface of your ceramic sink to crack.

### TAPWARE & ACCESSORIES

Use a mild household detergent or warm soapy water and clean with a soft cloth. It is important that no abrasive cleaners are used, as these will remove the surface gloss of the product.

### ELECTROPLATED METAL FINISHES

The hardest metal finish is chrome and all others are considered soft decorative finishes. The lacquers help to prevent fingerprints & tarnishing but they are only lacquers and need to be treated carefully. Our Metal Finishers apply a 2 pac clear automotive lacquer and should be treated as thus. Clean with a soft cloth and mild detergent. Avoid any harsh abrasives, thinners & glass cleaners. Best cleaning is Mineral Turpentine.

### TOILET SEATS

The best method of maintaining the finish while ensuring the cleanliness of toilet seats is simply to wipe them over with a soft cloth with soapy water. It is important that no abrasive cleaners are used, as these will remove the surface gloss of the product. At regular intervals the tightness of the hinge bolts should be checked, as continual loosening over time does occur.

### ACRYLIC BATHS

To preserve the polished surface, after using your bath, clean with a soft cloth and warm soapy water to wash away any body oils or soap residue. Do not use powders, pastes, thinners, window cleaning sprays or dry cleaning liquid.

## Warranty Periods

Turner Hastings ensures that all of its products are made using the highest quality materials and workmanship. Should you find a fault with either the materials or the workmanship within their warranty period noted below, Turner Hastings will, at its discretion, repair or supply a replacement for the faulty product or component.

Range	Product	Years
BASINS	Fine Fireclay Wash Basins	6
	Ceramic Wash Basins	6
BATHS	Acrylic Baths	5
SINKS	Fine Fireclay Sinks	30
VANITIES	Coventry Vanities	5
	Compact Vanities	3
	Bergamo Vanities	5
URINALS	Ceramic Urinals	12
	Urinal Sensor Kits	5

	French Provincial Collection	15
TRAPS & WASTE OUTLETS	Traps	1
	Waste Outlets	1
TOILETS	Toilet Seats	1
	Ceramic	12
	Inlet & Outlet Valves	3
	Inwall Cistern Frame & Tank	15

## Warranty Details

- 1 year parts and labour. Any claim made after this period is for parts only
- 1 year warranty applies to commercial installations
- All water pipes must be flushed prior to connecting tapware or toilets to the supply
- Maximum water pressure cannot exceed 500Kpa - AS/NZS 3500.1.-2003 (Clause 3.3.4) specifies 500kPa maximum water supply pressure at any outlet within a building for new installations
- 1 year warranty applies to all electroplated or sprayed finishes other than chrome on any brass or stainless steel tapware, accessories, waste outlets and bottle traps. Electroplated finishes on wastes are excluded from the warranty.
- 1 year warranty applies to washers, "O" rings, lip and other seals, shower hoses and all pull out sink mixer hoses and handsets.

Product must be inspected before installation! If a product has any unacceptable marks or has been damaged, DO NOT install it. Should faulty or damaged products be installed, Turner Hastings will not accept any obligation to provide labour for removal or replacement of the product.

Turner Hastings Product Warranty will only apply where the product has been installed by a qualified tradesman and in full accordance with installation instructions. This warranty does not cover damage by improper installation, accident, misuse, abuse, negligence, excessive wear and tear, improper care and maintenance, water and natural causes such as sunlight, humidity and other environmental conditions.

Replacement products and parts must be delivered to the

original store of purchase for WHS compliance.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonable foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

To make a claim, please complete a Service Request Form with the distributor from whom you purchased the item.

### UNDER COUNTER BASINS

A waterproof sealant should be used to help seal the basin and fill the gap between the basin and vanity bench. Do not use epoxy type glues – these glues harden and prevent the expansion and contraction of the basin which can lead to the basin cracking. The use of epoxy glues will void this warranty.

### FINE FIRECLAY SINKS

Fireclay is a natural product and therefore subject to variations. This should be seen as a quality that adds to its natural beauty. Variations +/- 2% to the specifications are common and acceptable. Never cut out or construct your bench top or kitchen cabinetry without having the sink onsite with you for measurements. If cabinetry or bench tops have been cut without the sink being measured, and the sink does not fit, Turner Hastings will not cover any costs of replacing or modifying any cabinetry or bench tops.

Most are designed with little gradation and standing water is common. Standing water is not a reason for return. Do not over-tighten the waste as this can cause the sink to develop stress fractures over time.

Your new fireclay sink may have a small crack or chip in an unglazed position such as the underside (in a place not seen after install). Small cracks and chips is not a manufacturing fault or defect, and in fact is common in ceramic, fine fireclay and other natural clay fired products. The cracks or chips is what is called a "firing crack", and it happens when the clay is baked in the oven during manufacturing, and is part of the heating and cooling process. The crack or chip is simply aesthetic only, and will not affect the installation, structure, or usability of the sink. The crack or chip will not grow over time either. This product still carries the full 6 year warranty Turner Hastings provides on fireclay sinks.

### TOILETS

A toilet seat which comes loose with continued use is not covered by warranty, it is the responsibility of the installer to ensure the seat is installed correctly on installation. Furthermore, all seats under normal usage have a tendency to loosen, it is the responsibility of the owner to tighten seats periodically with the correct sized screwdriver (do not use a power drill).

### VANITIES

Vanities are manufactured using water resistant materials. This does not mean that they are waterproof. Care must be taken to immediately dry up any spillage or leakage that may gain access to the cabinet as WATER DAMAGE is not a justifiable claim. Cleaning and maintenance instructions must be followed to ensure validity of warranty.

Adjustment on parts such as drawers and doors are undertaken during manufacture, but will most likely require fine adjustments after installation.
