This catalogue was printed using vegetable based inks on paper sourced from sustainable forests.

International Products

Selected Oliveri sinks, accessories and taps are sourced from international suppliers. They are designed and manufactured to Oliveri's specifications and quality standards.

Warranty

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure. Refer to oliveri.com.au for warranty details.

Icons

-  **Topmount sinks**
Suitable for installation above the bench top where the sink is inserted into the cut out. Topmount installation is suitable for all bench tops.
-  **Undermount sinks**
Suitable for installation below the bench top and is most often chosen for solid surfaces such as granite.
-  **Flushmount sinks**
Suitable for installation above the bench top in a routed edge so the top of the sink and bench top sit flush. Must be installed by a professional.
-  **Alfresco**
Sinks ideal for alfresco entertaining.
-  **Laundry**
Sinks ideal for use in the laundry.

FROM HUMBLE BEGINNINGS,
WE'VE TAKEN OLIVERI TO THE WORLD.

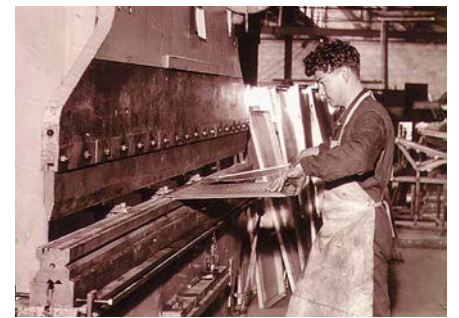

Featured products:
Monet sink (MO70U) and Essente square goose neck pull out mixer (SS2575)

We've come a long way from an unassuming suburban factory where our business began way back in 1947. It was at Watkins and Starr, now Oliveri Solutions, a modest domestic metal fabricator in Adelaide, South Australia, that a highly skilled and dedicated team pioneered the deep drawing process in Australia.

It was the beginning of something extraordinary. Today, Oliveri is Australia's only commercial pressed bowl sink manufacturer and one of this country's best home grown success stories.

Australian made. Global success.

Our design expertise and commitment to quality continue. We now import and distribute a wide range of taps, sinks and water filter systems across nine countries, including Australia, New Zealand, and the USA.

The vast range and superior design of our sinks and taps are enjoyed by homeowners around the world and the Oliveri name continues to be synonymous with style, quality, and home grown success.

Did you know?

Our founders decided on the name 'Oliveri' in a local Adelaide restaurant, by voting on names written on napkins. The accent in Oliveri is the tick that sealed the deal!

Oliveri[®]

DECISIONS. DECISIONS.

Here's our step-by-step guide to selecting the right sink and tap for you.

Selecting the right sink /

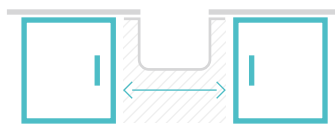

Installation

Topmount sinks are installed above the bench top, undermount below, and flushmount are installed flush with the bench top. We recommend you go for a topmount sink when using a laminate benchtop.

Cabinet size

Check that your cabinet is wide enough (left to right) and deep enough (front to back) to accommodate your chosen sink.

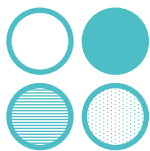

Configuration

How many bowls do you want? How many drainers, if any at all? And do you want the bowl on the left or right hand side?

Finish

Sinks come in polished, brushed and coloured stainless steel as well as granite finishes.

Bowl size

Do you want deep bowls for submerging baking trays and other cooking utensils? Or do you just need enough space to wash dishes too fragile for the dishwasher?

Pressed or fabricated

Pressed bowls are made from drawing the shape of the bowl out of a sheet of stainless steel, while fabricated bowls are made by folding their shape and welding their sides. Generally fabricated sinks will allow for tight radius edges, while pressed bowls will have a rounder, more traditional shape.

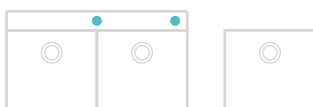

Scratch Prevention

Oliveri sinks are manufactured from genuine 18/10, 304 grade stainless steel, for optimum hygiene and durability. However, no stainless steel sink was ever designed to do battle against hardened metal utensils or food processor blades, etc, and will undoubtedly incur scratching. Over time, scratches in steel will appear less obvious as the sink develops its own unique finish. We recommend using bowl and surface protectors to help with scratching.

Tap integration

Do you need a big tap landing for multiple taps? Or do you prefer a sleeker look with no tap landing?

Accessories

Check what custom made accessories are available for your sink, on pages 38 to 41, to make the most of your sink space.

Warranty & service

All Oliveri sinks have a lifetime manufacturer's warranty*. For more information visit oliveri.com.au

Featured products:
Santorini granite sink (ST-BL1520) and
Vilo pull out spray mixer (VT0426B-ST-BL)

Selecting the right tap /

Quality /

- Trusted name**
 Look for a reputable brand that supplies quality products that comply with Australian Standards.

- Warranty**
 Compare warranties across products and look for the brand with the most confidence in their products. Oliveri taps come with a 10 - 15 year warranty*.

- Watermark**
 Ensure that the tap you are purchasing has the Watermark Logo (you can usually find it at the back of the tap). This confirms that the tap complies with Australian Standards.

- WELS Rating**
 This rating is designed by the Australian government to indicate the water efficiency of taps and other water related products. The higher the star rating (out of 6) the more water efficient it is.

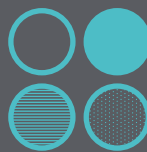

Design /

- Goose neck vs. single lever tap**
 Goose neck taps make a grand statement in your kitchen, while a single lever tap is simple in design, offering a low-profile look.

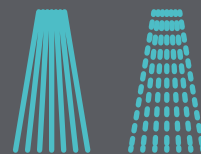

- Finish**
 Today, kitchen taps come in an array of finishes from polished chrome to matte black and white. Choose a finish that compliments the rest of your kitchen appliances.

Functionality /

- Spray and select button**
 Some mixers have an easy-flick button that changes the water pressure from high pressure to shower spray. You can also choose a select button that allows you to stop and start the water flow.

- Water pressure**
 Be sure to check that your water pressure is compatible with the guides specified within your warranty.

- Pull out mixer**
 A pull our mixer adds new functionality to your kitchen tap. The pull out gives you extra reach and is particularly helpful when filling pots and vases.

Features /

Italian made

Santorini sinks are made in Italy to ensure premium quality and reliability.

Yours for life

This rock solid sink comes with a lifetime manufacturer's warranty* for your peace of mind.

Scratch resistant

This resilient sink is ready to battle your knives and forks. If it does scratch, you can buff them out with a bit of elbow grease and multi purpose cleaner.

Heat resistant

The granite is able to withstand thermal shocks and is heat resistant up to 280°C. But we do recommend using a surface protector for hot pots which can reach up to 600°C.

Stain resistant

Dirt and stains can easily be removed by gently wiping the sink with hot water and detergent, and then rinsing.

Easy to clean

An active agent in the sink resists limescale making it easier to clean.

Heat and sound insulation

Helps maintain the water temperature and absorbs noise.

Antibacterial

Removes bad smells and pollutant substances often found in the kitchen.

Spectra

Features /

Coloured steel

This striking sink comes in three colour options:

- Stainless
- Copper
- Gunmetal

Premium finish

A premium PVD coating gives the copper and gunmetal sinks their distinctive colour.

Yours for life

This statement sink comes with a lifetime manufacturer's warranty* for your peace of mind.

Universal installation

The Spectra sink is suitable for top, under and flushmounting.

Contemporary design

The 5mm radius corners complete the contemporary design while still being easy to clean.

Matching accessories

Along with a chopping board and drainer, every Spectra sink comes with a matching bowl protector to protect the bowl from scratching.

Inspired Design /

Oliveri Spectra double bowl sinks come with an inspired design feature in the form of a curved bridge dividing the two bowls. This curved bridge acts as an overflow to safeguard against accidental over filling eliminating the need for an overflow.

Featured products:
Spectra sink (SB63SS) and
Pepe mixer (PT2010C-BLACK)

Sustainability

At Oliveri, sustainability is a core value. We design products to stand the test of time. We are proud of our ISO 14001 certification, the international standard for effective environmental management, which we earned through our long-term commitment to sustainability.

We work with sustainable materials and operate on zero waste to landfill at our Adelaide factory. The durability of our long-lasting products also ensures a reduction in waste.

Our products are designed to stand the test of time. Our kitchen sinks come with a lifetime manufacturer's warranty and our tapware feature warranties lasting up to 15 years.

Every drop counts

All materials used in our bathroom packaging is 100% recyclable, and we are well on the way to ensuring all our kitchen packaging meets these same standards.

THE GREAT OUTDOORS

We're all drawn to the great outdoors - there really is nothing better than a backyard BBQ on a balmy summer night. But why stop there?

Plan your outdoor kitchen well and you'll enjoy year-round cooking and entertaining outdoors, even when summer is a distant memory.

Featured products: Solitaire sink (LR510) and Essente goose neck pull out mixer (SS2525)

Five keys tips to the perfect outdoor kitchen.

Functionality

How do you plan to use your new space? Will you use the main kitchen for food prep but cook outside, or create a totally self-contained outdoor kitchen? This decision will help you determine your ideal sink and tap combination. A smaller sized sink, such as the Solitaire LR510 or Martini 440, may be all you need; each sink is perfect for a quick clean up or filling with ice and drinks. For the complete outdoor kitchen experience, a large sink and pull-out mixer tap such as our Essente goose neck will accommodate every last bit of washing up from Sunday's BBQ with friends.

Design

In most homes, the interior design will carry through to the outdoor kitchen, but your exterior setting still needs some thought. A large butler's sink, although they look great, may not be practical. Try a small round or square sink that will better suit your needs and design style.

Location

Keeping your sink and tap close to the BBQ makes cleaning up a breeze after a big night of entertaining. Locating the indoor kitchen on or adjacent to your back deck or patio area makes sense, too. A quick dash back inside to gather ingredients is much less complicated when you don't have to weave your way around furniture.

Durable Materials

Outdoor kitchens must be able to withstand all weather conditions. Select durable, long-lasting materials such as stainless steel or granite. Our stainless steel Essente taps and granite Santorini sinks are a perfect combination.

Shelter

Even if they are classed as weather resistant, the finish and fittings of your sink, tap and outdoor appliances might not cope well in a harsh climate. Adequate protection is recommended for you, your guests and your sink and tap. Undercover alfresco areas are also easier to keep clean and maintain.

LOVE YOUR LAUNDRY

Featured products:
Laundry TI45 sink and
Essential goose neck
pull out mixer (ES520-P)

No more wash day blues. Choose the right sink and tap for your laundry /

The Sink

In addition to our traditional, purpose-built laundry tubs, other sinks may be considered suitable for use in the laundry. Look for a single deep bowl for soaking clothes or filling buckets. If space is limited, go for a standard single bowl kitchen sink.

Colour

Brighten up your laundry with some colour. This can be done with one of our copper Spectra or black Santorini sinks or maybe with a black or white Vilo mixer tap.

Bench depth

Make sure your bench is deep enough for your sink. 600mm is the standard depth of a kitchen bench; however this is often not enough for a big laundry tub. Laundry sinks are generally bigger than kitchen sinks, and you'll have hoses tucked in behind your washing machine. We recommend a minimum 650mm deep benchtop in the laundry.

Cabinet width

You'll also need to consider the size of your cabinets, as laundry sinks are normally larger than kitchen sinks. A large laundry tub may require even more space, for example the Oliveri TI70 laundry tub needs a minimum cabinet width of 700mm.

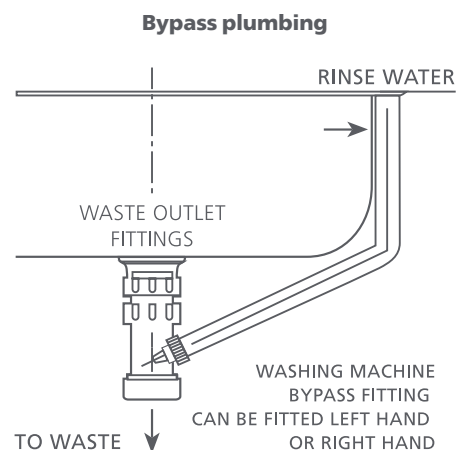

Pull-out and spray mixer taps

A mixer tap with a pull out spray provides a little extra reach and makes for easy cleaning of the sink or washing clothes and is super handy when filling the mop bucket.

Overflow and Bypass plumbing

The Oliveri Laundry range is available with an overflow and bypass plumbing option. An overflow can safeguard against accidental overfilling, while the bypass plumbing will allow washing machine grey water to enter the drain even while the tub is in use.

Overflow option

T145 45 litre tub bowl
T145S 45 litre tub bowl with rinse bypass

hansgrohe

German made Hansgrohe taps add style and simplicity to every setting. Oliveri offers an exclusive range of premium Hansgrohe taps.

Our beautiful range of Hansgrohe taps includes the popular Metris Select 320, available with or without a pull out spout. This design is water efficient, practical and comes complete with a 15 year warranty*.

Metris® Select™ 320 pull out mixer

Spout swivels by 150° – for greater comfort and freedom of movement.

The pull out function provides extra reach up to 50cm.

Turn the mixer on and off. Start the water flow using the Select button, and stop it with absolute precision at the touch of the button.

Open mixer. You use the ergonomically shaped lever handle to set the mixer at the beginning of your kitchen activities, and then select your chosen temperature. The handle remains open as you control the water flow at any time by the Select button in the spout.

Features /

German made

Hansgrohe taps are German made, offering innovative design and solid engineering.

Warranty 15 years*

Select Button

A simple press regulates the water flow: Switching on and off with ease.

Comfort Zone

Defines the height, side clearance, and - with pull out function - the length of the space around the mixer.

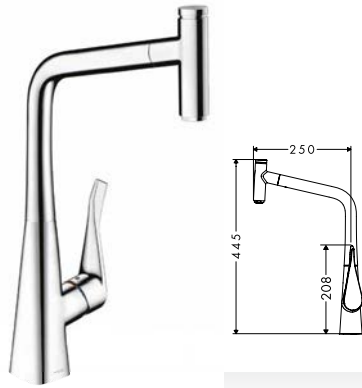

Air Power

Combines water with a generous amount of air. For an especially homogenous and splash-free water spray.

Quick Clean

Limescale deposits are simply wiped away by rubbing a finger over the flexible silicone slats.

Water Filters

**Pure filtered water in your own home?
Now that's refreshing.**

Fresh, pure, pristine drinking water right from your own tap. Oliveri Water Filter Systems are the perfect way to enjoy the crisp taste of bottled water at a fraction of the cost. Convenient, compact, well designed, good for you and good for the environment. Say goodbye to bottled water.

Features /

Filter change alarm monitor

Included filter change alarm monitor will remind you to change the filter after 12 months.

Easy to change cartridges

Simple bayonet style connection means cartridges are easy to change.

Limescale reduction

Helps to prevent the build-up of limescale.

Inline, Satellite or 3 way

Choose an inline system to filter through your existing mixer, a satellite system to filter through a designer satellite filter tap or select a filter connection kit to connect to a 3 way mixer (sold separately) or existing satellite tap.

Harsh water option

Inline systems are available for homes in 'hard' or 'harsh' water areas.

Finely filters

Finely filters to 1 micron* and polishes mains water to a premium quality for drinking, cooking, tea and coffee, and washing fruits and vegetables.

Latest technology

The latest carbon block technology absorbs chlorine, bad tastes, odours, dirt, rust and cysts** (e.g. giardia and cryptosporidium).

Maintains minerals

Maintains healthy minerals and salts.

Easy installation

Suitable for horizontal or vertical installation with an easy to install, space saving design.

Warranty

6 year warranty and dedicated after sales service for confidence and peace of mind.

Capacity

Inline cartridges have a capacity of 56,700 litres or one year, whichever comes first†. 3 Way Mixer Tap or Satellite Filter Tap Replacement Cartridges have a capacity of 9,450 litres or one year, whichever comes first†.

* FS5050 Filters mains water to 5 microns.

** Cysts blocked by 1 micron filtration systems only.

† Filter Cartridge life is subject to incoming water pressure, water flow and water quality.

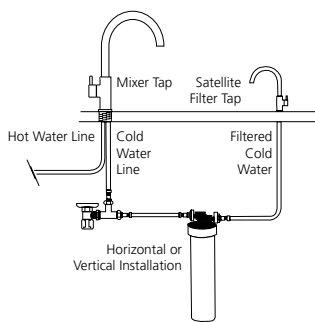

Satellite Water Filtration Systems /

Filters mains water through a designer satellite filter tap.

FS7025 Satellite Water Filtration System with Round Goose Neck Filter Tap
